NookBox Z-Wave Dongle (P119042 / E6309678)

NookBox Z-Wave Dongle designed to be used with NookBox gateway to provide extra Z-wave device compatibility. It enables the Control Panel to learn in and interact with various Z-wave devices on the market.

Identifying the Parts

1. Blue LED

LED ON: Working Normally

Operation

1. Power down the NookBox Control Panel
2. Plug the Z-wave Dongle into the USB port on the Control Panel
3. Power on the Control Panel
4. If the Z-Wave Dongle is detected by control panel, the “Exclusion” and “Z-Wave Reset” features will be displayed under Device Management in the website configuration page.
5. Select “Z-Wave Reset” and click “Yes” to reset Z-wave dongle.

6. Refer to Control Panel installation manual and individual Z-wave device manual to learn in and control your Z-wave devices.

<NOTE>

Do NOT plugin / unplug the Z-wave dongle into Control Panel when the panel is powered on.
